II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? Approximately 50 tons
3. How much new or additional acreage was affected during past year? No new acreage

4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

No new disturbances occurred during the past year. Disturbances are contained within the same two acres we have been working on for the past years. Using a track hoe, we mine boulders of picture stone to be cut in Tucson, AZ. Approximately 50 tons of stone have been removed.

5. How much acreage was reclaimed during past year? No acreage

6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

No reclamation has been performed. We are still working in the same location. Excess material is being stockpiled for use in future reclamation.

7. What is the total disturbed acreage at years end? We have disturbed  
approximately two (2) acres from the start of this mine.
8. Briefly summarize mining and reclamation planned for the upcoming year.  
We plan to continue work on the same two acres until all the picture  
stone is removed. At that time, we intend to reclaim the acreage with  
the excess material we have stockpiled.

**NOTE:** Section III., "Additional Information" applies only to large mining operations.

### III. ADDITIONAL INFORMATION
